Explanation

Funding included in the budget is a projection of income for next year. It includes current funding contracts, but we also include funding where we believe there is a high degree of likelihood that the support will be agreed upon. This helps ensure more accurate budgeting by matching likely activities with likely funding. Renewed funding from Global Affairs Canada and BMZ are however not included in the current budget as we still are at the application development stage. COVID-19 and significant reduction in travel and related activities has led to a significant underspend in 2020. Positive discussions with donors support the assumption to fully carry forward surplus funds from 2020. In June, the assumption was that 50% of the surplus funds could be carried forward.

Expenditure is presented per Work Stream/Unit in four main categories: Allocated Staff Costs, Allocated Overhead Costs, Direct Staff Cost and Direct Expenditure on delivery activities. The exception is Administration and SSU/DG, where all staff costs are allocated to reflect that the purpose of their work is to support IDI's service delivery and not direct. Allocation of staff costs to each unit is by the unit's percentage of FTE's compared to total FTE's. In the Administration unit there are no direct delivery activities, but there is travel and consultancy in the SSU/DG budget.

It should be noted when comparing income figures that while 2021 and 2020 figures include all income, 2019 actual figures only include recognised income or grants used. All excess funds are accounted for as Donor Liabilities and will be carried forward and spent on activities in future years or be returned to the donors.

Further explanation to the budget is found in the appendix "IDI OP 2021 – Corporate" under the section IDI Budget and Financial Sustainability.
