

INTOSAI Side Event at the High-level Political Forum on Sustainable Development – HLPF 2024

‘Auditing for effective, accountable and inclusive public institutions for implementation of SDGs’

15 July 2024, from 13:00 to 14:30 at the Consulate General of Brazil in New York.
225 East 41st Street, New York, United States. Online streaming on Zoom.

As the 2030 Agenda for Sustainable Development reaches its mid-point, the International Organisation of Supreme Audit Institutions (INTOSAI) and its member Supreme Audit Institutions (SAIs) continue their strong engagement and contribution to effective, accountable, and inclusive public institutions for the implementation of Sustainable Development Goals (SDGs).

The INTOSAI Side Event at the HLPF 2024 aims to bring together SAIs and key stakeholders to showcase SAI contributions to effective, accountable, and inclusive public institutions, as envisioned in SDG 16, through audits of SDG implementation. The panel discussion will highlight areas such as elimination of poverty, climate action, and core processes for implementation of SDGs. The event will also launch the updated version of IDI’s SDGs Audit Model (ISAM), designed to support SAIs in continuing to conduct high-quality and high-impact audits of SDG implementation.

This event is being co-organised by the INTOSAI General Secretariat, the INTOSAI Development Initiative (IDI), the INTOSAI Working Group on Environmental Auditing (WGEA), SAI Brazil and the Permanent Mission of Brazil to the United Nations (UN), in collaboration with the UN Department of Economic and Social Affairs (UNDESA).

It will be held in English and streamed online on Zoom. Please [register here](#) to attend in person or online.

Agenda of the side event:

13:00-13:10 – Opening remarks

- Ambassador Sergio França Danese, Permanent Mission of Brazil to the United Nations
- Minister Walton Alencar Rodrigues, SAI Brazil, representing the INTOSAI Chair
