

# **ANALYSIS PHASE**

# ANALYSIS PHASE

Determining the Learning Needs

Conducting Task analysis

Developing Performance Objectives

# **DETERMINING LEARNING NEEDS**

# **LEARNING NEEDS VS. NON-LEARNING NEEDS**

# WHAT IS LEARNING NEED?

Where you want to be

Where you are

# WHAT IS LEARNING NEED?

Is the gap between the specified competencies required and the current competencies of the learner

# WHAT IS LEARNING NEED?

## Four categories of needs

Felt needs

- what learners say they need

Expressed needs

- what the learner demonstrates by their actions

Normative needs

- needs which are defined by an expert

Comparative needs

- needs of differing groups

# WHY ASSESSING LEARNING NEEDS?

To meet SAI work requirement

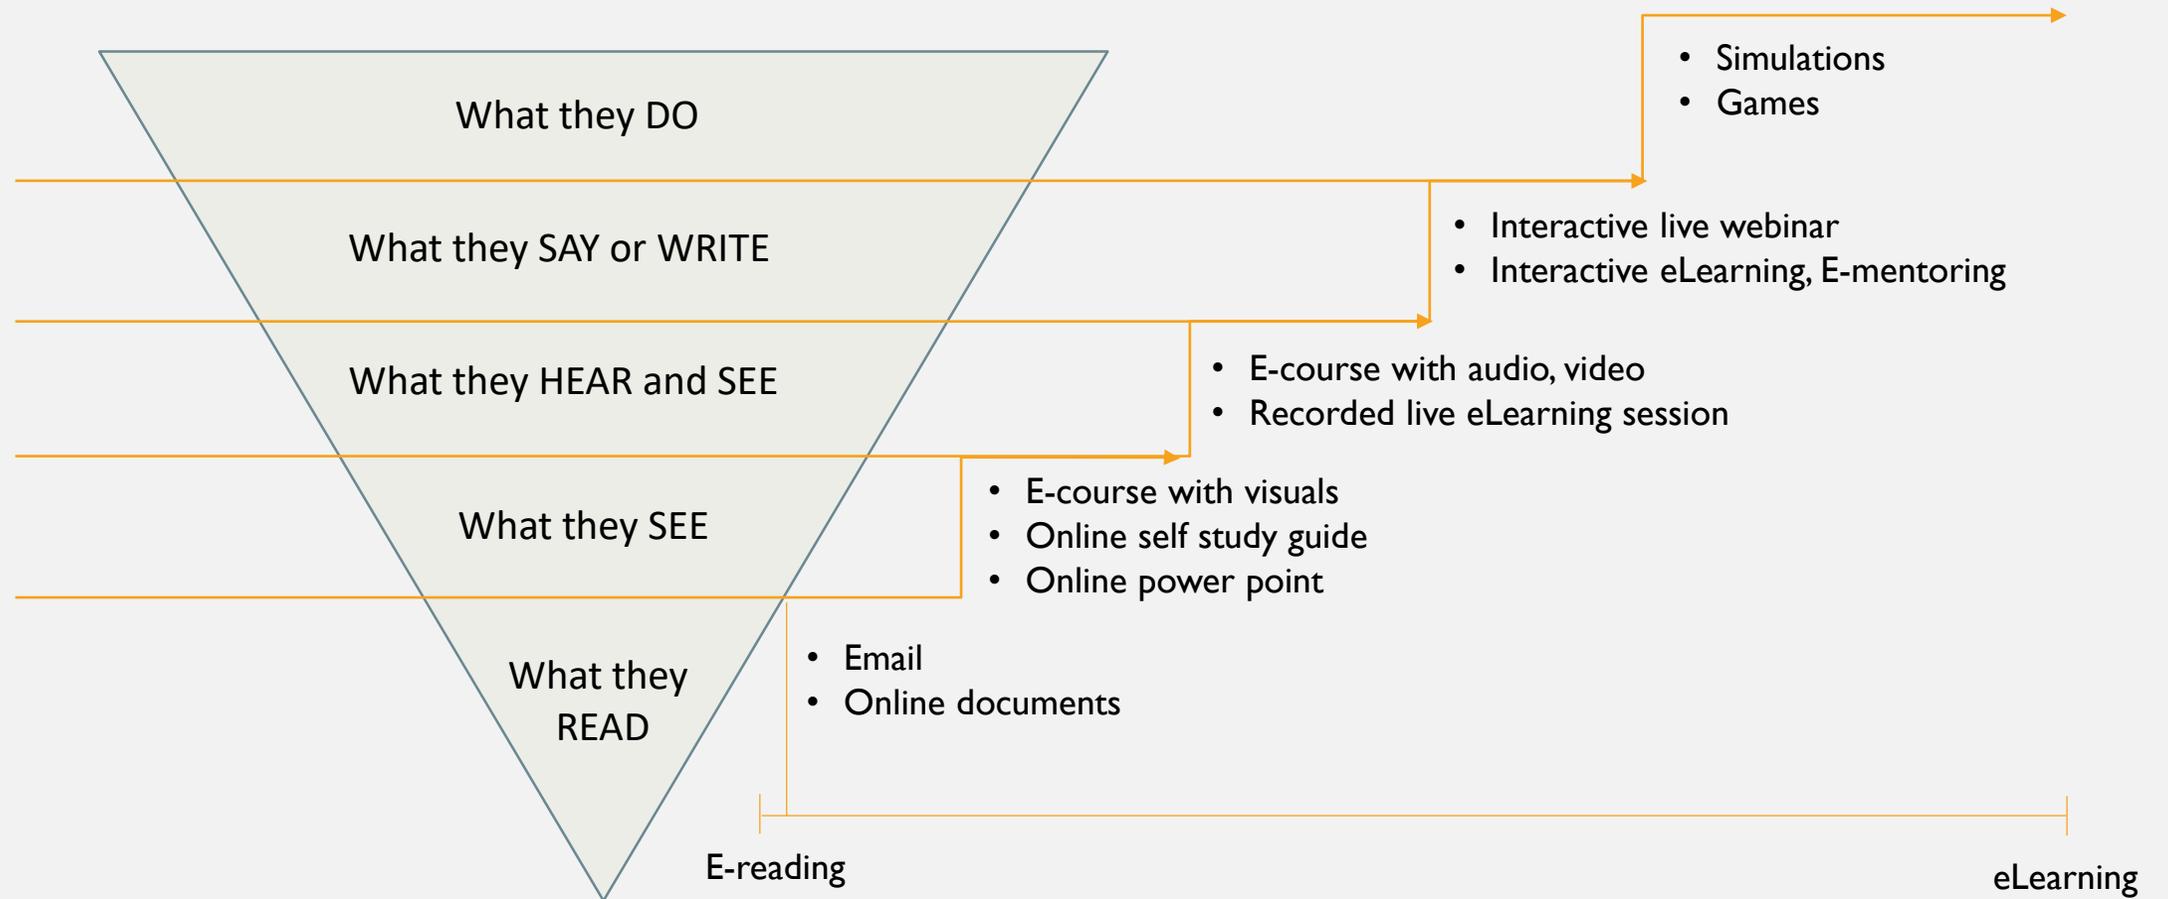

To meet new or existing role requirement

To address personal development needs

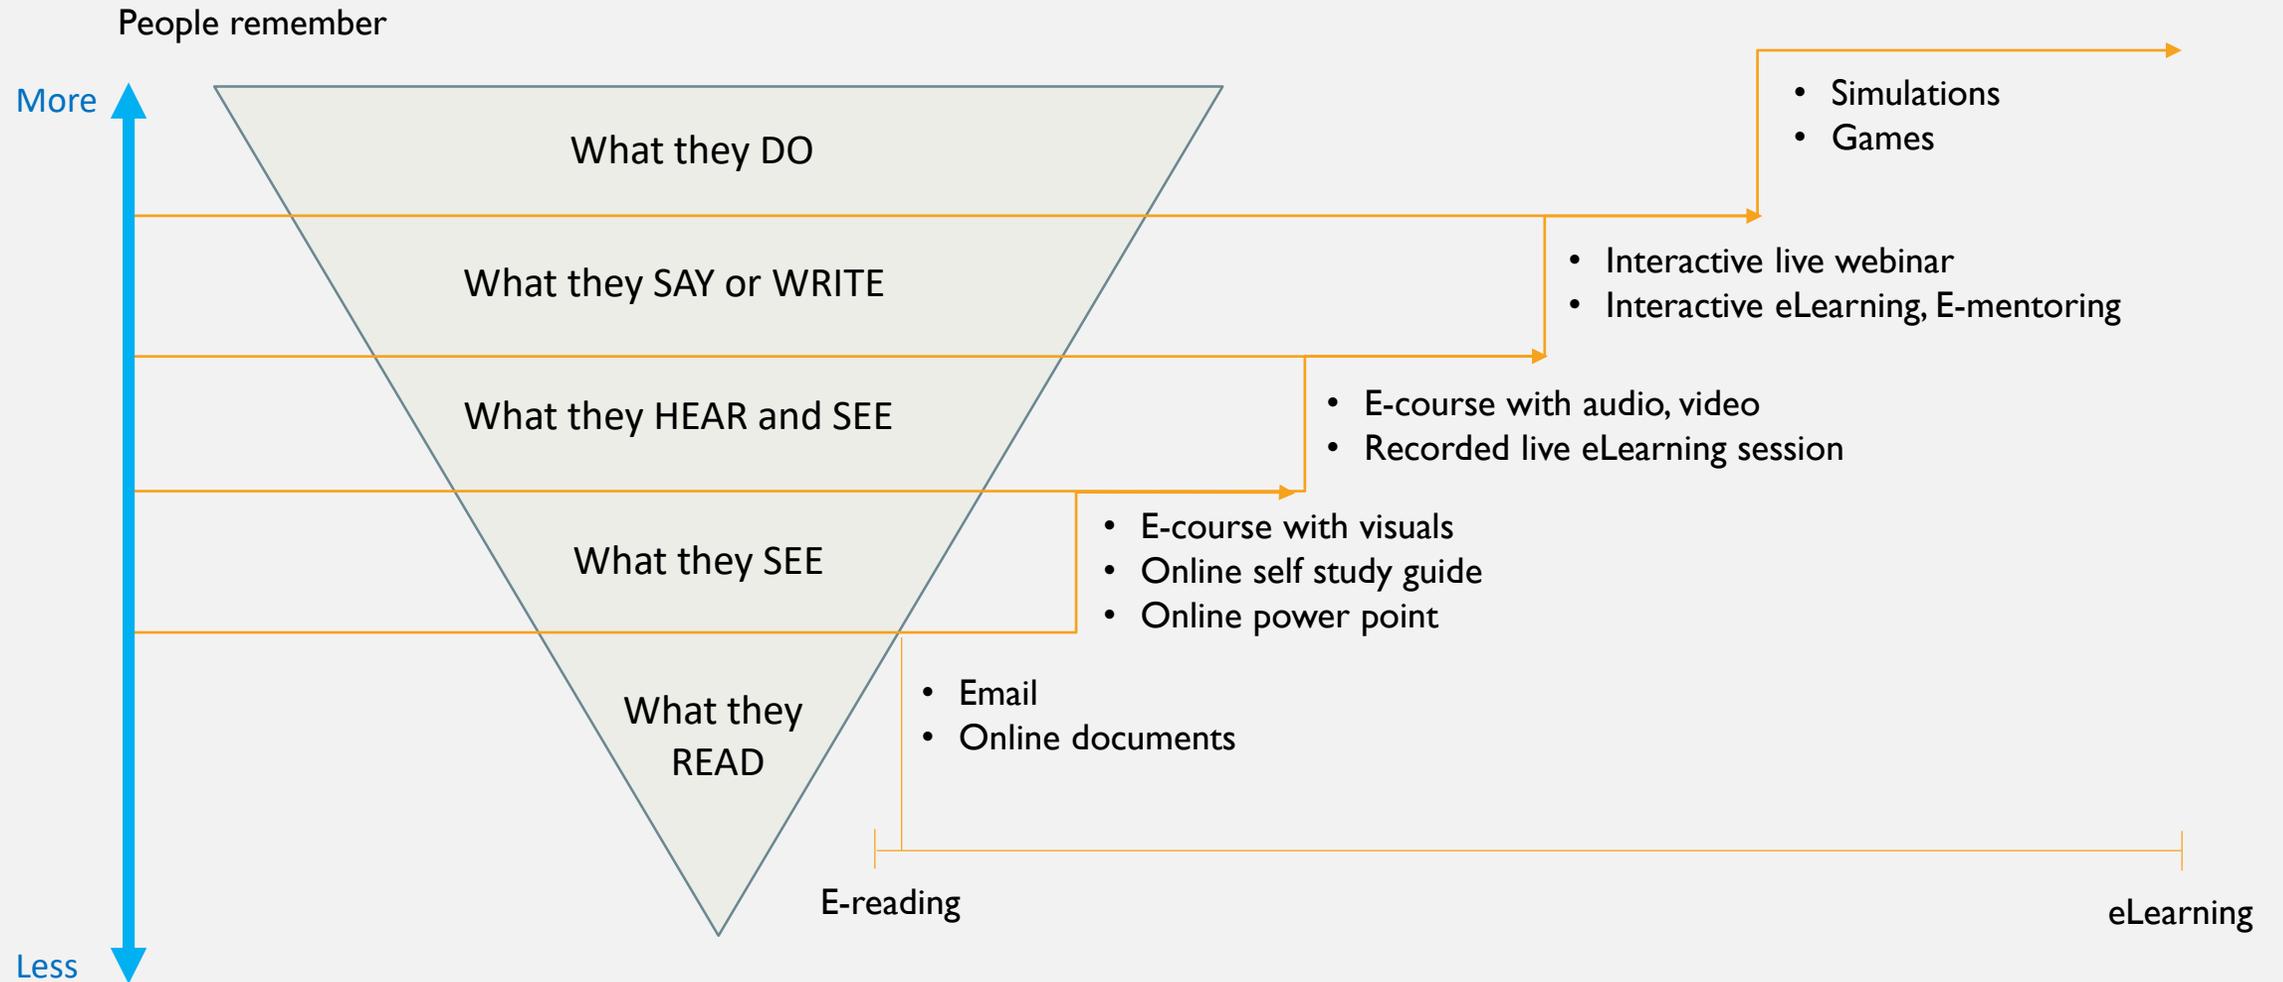

- Purpose of training is to develop specific skills to deal with specific tasks
- Performance is improved when learning needs are identified

# ANALYSIS

# **CONDUCTING TASK ANALYSIS**

# STEPS OF TASK ANALYSIS

# I. IDENTIFY MAJOR TASKS

# I. IDENTIFY MAJOR TASKS

## Major Tasks in Performance Audit process

1. Identify performance audit topic
2. Describe the audit entity
3. Select key areas/formulate lines of enquiry
4. Define audit objectives and scope
5. Derive audit criteria
6. Determine audit approach
7. Develop detailed audit programme
8. Gather audit evidence
9. Analyse evidence
10. Derive preliminary audit conclusions
11. Discuss with entity management
12. Prepare audit report
13. Conduct audit follow up

# 3. SEQUENTIAL STEPS TO COMPLETE A TASK

## Major Tasks in the Performance Audit

1. Identify performance audit topic
2. Describe the audit entity
3. Select key areas/formulate lines of enquiry
4. Define audit objectives and scope
5. Derive audit criteria
6. Determine audit approach
7. Develop detailed audit programme
8. Gather audit evidence
9. Analyse evidence
10. Derive preliminary audit conclusions
11. Discuss with entity management
12. Prepare audit report
13. Conduct audit follow up

### **Describe the audit entity**

- |     |  |
|-----|--|
| 2.1 | Review previous years' files/reports                           |
| 2.2 | Review documents (legislation, budgets, ministry instructions) |
| 2.3 | Interview key personnel (lines of responsibilities)            |
| 2.4 | Prepare notes, flowcharts and organisational charts            |
| 2.5 | Prepare entity description report                              |

## 4. IDENTIFY **K & S** TO COMPLETE THE TASK

### Major Tasks in the Performance Audit

1. Identify performance audit topic
2. Describe the audit entity
3. Select key areas/formulate lines of enquiry
4. Define audit objectives and scope
5. Derive audit criteria
6. Determine audit approach
7. Develop detailed audit programme
8. Gather audit evidence
9. Analyse evidence
10. Derive preliminary audit conclusions
11. Discuss with entity management
12. Prepare audit report
13. Conduct audit follow up

### Describe the audit entity

- 2.1 Review previous years' files/reports
- 2.2 Review documents (legislation, budgets, ministry instructions)
- 2.3 Interview key personnel (lines of responsibilities)
- 2.4 Prepare notes, flowcharts and organisational charts
- 2.5 Prepare entity description report

### **K & S**

- Analytical skills
- Interview skills
- Knowledge of organizational structure
- Writing skills

## 5. PRIORITY IN MAJOR TASKS

### Gap

5 Wide gap in  
knowledge and  
skills

4

3 Moderate gap

2

1 Little or no gap

### Importance

5 Critically  
important, job  
success depends on  
effective  
performance of the  
task

4

3 Moderate  
importance

2

1 Little importance  
for job  
effectiveness

### Frequency

5 Daily

4 Weekly

3 Monthly

2 Annually

1 Rarely

## 2. DEVELOPING PERFORMANCE OBJECTIVE

# PERFORMANCE OBJECTIVE

- A **statement** describing what management expects an employee to perform when doing each task on the job.
- Developed for **each major task** identified from task analysis

# PERFORMANCE OBJECTIVE

PO statement consists of three components:

Condition  
component

---

---

Task  
component

---

---

Standard  
component

---

---

# PERFORMANCE OBJECTIVE

## Condition

Reference document (audit manual, guidelines)

Supporting materials (job aids, forms, ledger sheets)

Other tools or equipment (computers, GPS, phone)

Subject Matter Experts.

# PERFORMANCE OBJECTIVE

## Condition

Reference document (audit manual, guidelines)

Supporting materials (job aids, forms, ledger sheets)

Other tools or equipment (computers, GPS, phone)

Subject Matter Experts.

## Task/Performance

A brief, clear, action-oriented description of the task to be accomplished

Contains a single verb describing an action

Observable and measurable.

# PERFORMANCE OBJECTIVE

## Condition

Reference document (audit manual, guidelines)

Supporting materials (job aids, forms, ledger sheets)

Other tools or equipment (computers, GPS, phone)

Subject Matter Experts.

## Task/Performance

A brief, clear, action-oriented description of the task to be accomplished

Contains a single verb describing an action

Observable and measurable.

## Standard

Rules and regulations;

Acceptable process or format;

Quality requirement

Completeness requirements;

Time and cost requirements

# EXAMPLE

TASK	PERFORMANCE OBJECTIVE		
	Conditions	Task/Performance	Standards
Describing the audit entity	Given permanent file, previous year's working papers, and other specific documents,	the auditor will describe the audit entity,	to the extent that it will include entity's mandate, organizational structure, policies and rules and regulations guiding its operations.

# EXAMPLE

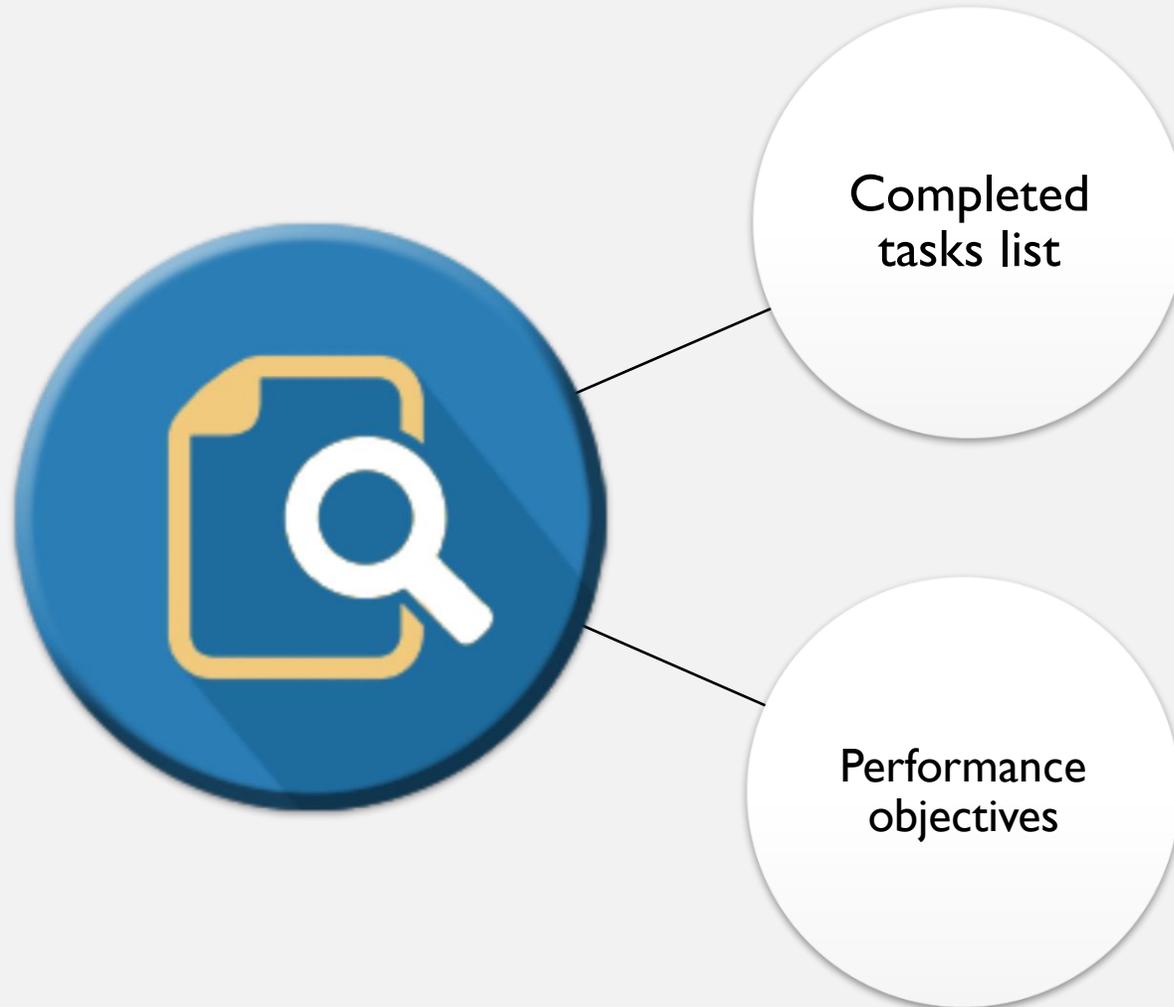

TASK	PERFORMANCE OBJECTIVE		
	Conditions	Task/Performance	Standards
Describing the audit entity	Given permanent file, previous year's working papers, and other specific documents,	the auditor will describe the audit entity,	to the extent that it will include entity's mandate, organizational structure, policies and rules and regulations guiding its operations.

Task: *Describe audit entity.*

Performance objective:

*Given permanent file, previous year's working papers, and other specific documents, the auditor will describe the audit entity, to the extent that it will include entity's mandate, organizational structure, policies and rules and regulations guiding its operations.*

# RESULTS OF TASK ANALYSIS

# TASK ANALYSIS AND COURSE DESIGN

## Elements of task analysis

---

The job which is required

---

Priority major tasks in the job

---

Performance objective for each major task

---

Sequenced steps in performing each major task

---

# TASK ANALYSIS AND COURSE DESIGN

## Elements of task analysis

---

The job which is required

---

Priority major tasks in the job

---

Performance objective for each major task

---

Sequenced steps in performing each major task

---

## Elements of a course design:

---

Name of the eLearning course

---

Title of each session/module

---

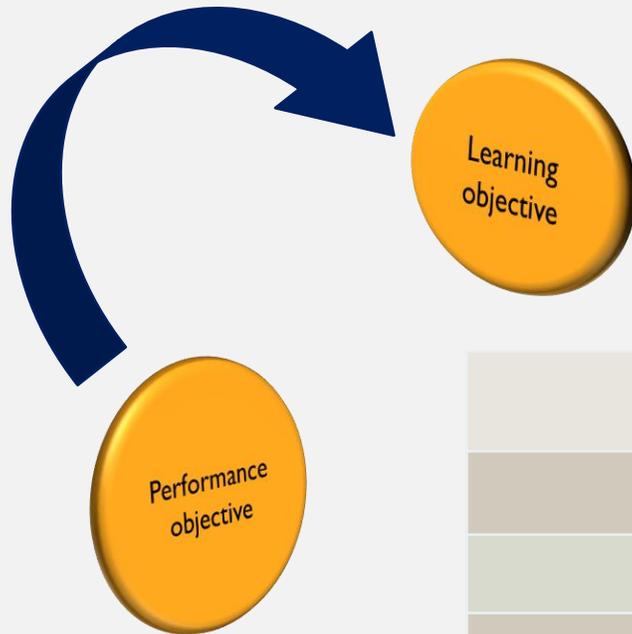

Learning objective of each session/module

---

Key Learning Points in each session/module

---

# RELATIONSHIP TASK ANALYSIS AND COURSE DESIGN

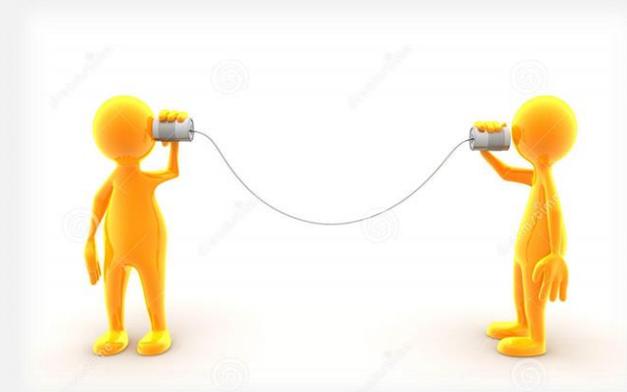

Element of task analysis		Element of course design
Job	→	Name of the course
Prioritized major tasks	→	Module title
Performance Objective	→	Module Learning Objective
Sequenced steps in each major task	→	Key Learning Points in a module
